

*Each student will graduate prepared to lead a rewarding, responsible life as a contributing member of our community and greater society.*

### **Test Scores – Part of an overall assessment of student learning**

In the Lake Washington School District, evidence of learning is gathered in many ways. Information about student performance and the performance of the school district is gathered from a variety of sources, including district and state assessments, and from the classroom teacher. Each piece provides a “snapshot” of how well a child is doing. The more “snapshots” that are gathered, the clearer the picture of performance becomes.

A district-wide assessment program is in place, which is used to:

- diagnose student learning on a day-to-day basis
- evaluate programs
- improve instructional decisions
- determine placement and certification
- respond to public accountability

### **Classroom Assessments**

Assessment is a natural part of instruction. Teachers gather information on a daily basis both in formal and informal ways to guide instruction and make decisions about learning.

### **Early Literacy Assessment**

- DIBELS (Dynamic Indicators of Basic Early Literacy Skills) assess reading proficiency in kindergarten through 2<sup>nd</sup> grade.

### **MSP, HSPE measures academic achievement against state standard**

Measurements of Student Progress (MSP) tests measure how well students are able to apply knowledge and skills in reading, writing, mathematics and science and are administered in grades 3, 4, 5, 6, 7 and 8. The MSP is one of two tests that replaces the Washington Assessment of Student Learning (WASL), which was the state assessment given from 1997 to 2009.

The High School Proficiency Exam (HSPE) replaces the WASL in determining if high school students are proficient. Passing the HSPE tests for reading and writing are a state graduation requirement; passing the HSPE for math is one option in meeting a state graduation requirement.

### **Subjects tested, MSP:**

- Third grade: Math and Reading
- Fourth grade: Math, Reading and Writing
- Fifth grade: Math, Reading and Science
- Sixth grade: Math and Reading
- Seventh grade: Math, Reading and Writing
- Eighth grade: Math, Reading and Science

**Subjects tested, HSPE:**

- Math, Reading, Writing and Science are administered in 10th grade. Students may retake the test in 11th and 12th grade as needed to meet the state assessment graduation requirement.

**End-of-Course (EOC) Exams**

In spring 2011 students in grades 7-12 began taking end-of-course math exams. The state is moving to end-of-course exams so students can be tested on the knowledge and skills they've gained from a specific course rather than on a comprehensive test like the HSPE that assesses overall knowledge.
