Comment [S1]: Title must be centered and in the same size and type of font as the rest of the document.

Comment [S2]: Double-space the entire document. In Word 2007, remove the automatic spacing features under "Paragraph."

Comment [S3]: If an entry takes up more than one line, indent the second and following lines of that entry.

Comment [S4]: All entries should be in alphabetical order by the first word of the entry. If the entry starts with "A," "An," or "The," then alphabetize by the second word of the entry. Entries that start with a number go before other entries.
