

Morning Bus Routes for Lakeview Elementary

Each August, the Lake Washington School District Transportation Office mails a postcard to every registered student who qualifies for transportation services to and from school. The postcard contains information about the specific bus stop to which the student has been assigned. If you have any questions about your student's bus stop assignment or questions about the routes listed below, please contact the Transportation Office at 425-882-5120.

Please note that all times listed on the routes below are approximate. We recommend that your student arrives at his or her assigned stop five minutes before the scheduled pick-up time. All bus schedules are subject to change.
