

TTL4 Student Home Use

✈ **For use at home**, students need to download and install the program to their home computer

<http://ttl4.sunburst.com/downloads>. You will need to install the Full versions and then the update.

Student Log In and Password is the same one used for school. 107283 is the license number.

Scroll to the bottom of the web page until you see the Full Versions shown below. Install the one the arrow is pointing to

Due to the size of these downloads, if you are installing on multiple computers, download the file once. Then distribute the file locally. Ways you could do this: save to a network drive, flash drive or burn it to a DVD.

Full Versions:

We recommend employing a download manager or using a browser which will automatically resume downloads in the event of a failure.
*Internet Explorer, among others, will NOT automatically resume on incomplete downloads.

Macintosh Users:
These files are zipped and should automatically unpack on almost all OSX operating systems. Launch the installer by double-clicking on the contained file in your 'downloads' or 'documents' folder. The contained files will be in MPKG format for installation to the Mac OS.
