- Travel and other experiences that demonstrate understanding of foreign cultures

Ah ha moments

Describe one or two moments in which you realized something that was a vital understanding for you.

EXAMPLE

When my family was on vacation I found I loved hearing from our guide about his family and life as a child. It was so different from anything I knew in the United States. I decided I wanted to bridge cultures from that moment on.

WORK EXPERIENCE EXPLAINED

For every item listed on your resume please explain

1. What you did
2. What you learned
3. What role you played in this community

Student examples

Peer Tutoring

I have been a tutor for the past four years. I have tutored five students in Biology and Humanities. During one hour a week I work with the students doing homework, checking class notes, editing papers, organizing schedules. I feel I get as much as I give tutoring. This program has helped me with my own homework. I have also learned how to organize time, prioritize for class and pick out important topics for tests. I have been a leader and found that having the five students listen closely to what I said a little frightening at first and then exciting.

ICS Drama Club

Acting has never been my thing but in eighth grade I joined the Drama Club with my best friend. I learned to be a part of a team and shared responsibilities behind the scenes. One day I was asked to try out for a part. I went on stage and loved it. I have learned how to study lines and be patient with other people. I have used a few tricks I learned on stage to help present in my Humanities and IS classes.

Katrina Benefit Carwash Volunteer/Leader

After the hurricane devastated New Orleans I wanted to do something special to help the victims. My Mom and I came up with the idea of having a carwash to raise money for the relief Fund. Seven friends joined us and we raised over a thousand dollars. It was great to be a part of a team and feel like we were making a difference in the world.

Little Bits Riding School

I volunteer to help children ride the horses at Little Bits. It is really amazing to see them smile as we walk around the corral with the horses. The kids are suffering from some sort of disability and have a hard time. When they get on a horse they seem to connect to the horse and share a special relationship. I enjoy watching this happen and have learned that many people know things that don't come from books. They may seem not very smart but they know how to relax with the horses. Animals really relate to some people. I enjoy being a part of a team that helps this to happen for other children.
