

## Safety Tips for Drop-Off and Pick-Up

- Remember to drive 25 mph through our neighborhoods
- 20 mph in the school zone
- 5-10 mph in school parking lots
- Fully stop at all stop signs and hand held signs (Patrol)
- Be patient
- Do not let your kids out of your vehicle before the drop-off zone sign and pull forward as far as possible.
- Students leave vehicle on sidewalk side only. If your kids are not ready to hop out at pull-up, please drive around to the parking lot and cross them at the parking lot crossing or circle back around to the drop off lane.
- Do not load kids into your car until you have passed the safety pick-up sign; our safety patrol will be helping you load kids safely.
