

Washington State Healthy Youth Survey 2008

Kamiakin Junior High's 8th graders will be participating in the Washington State Healthy Youth Survey. On October 16th during Homeroom, 8th grade students will be surveyed on a variety of topics including feelings about school and community, relationships, nutrition, health education, knowledge of tobacco, alcohol and drug use, and safety related habits. The survey results are used by schools, communities, and the state and local health departments to plan programs to support our youth and reduce their risks. The survey is voluntary and anonymous. An informational brochure with more information about the survey was sent home with your student on September 26. Should you have any questions, please contact Ms. Kinney.
