

May 1, 2009

Dear Parents and Teachers,

In preparation for our upcoming Science Fair, Wednesday, May 27th from 5:30 PM - 7:00 PM, **each participant or group must complete an application and turn it in by Friday, May 8th**. Participants may work alone, as a class or with one other partner. The science fair will be held in the gym.

We have created a packet of materials to help you guide your child through the process of selecting, preparing and presenting their science exhibit. If you have any questions feel free to contact, Gail Anderson, ganderson@lwsd.org, Karen Taggart, ktagg@hotmail.com, or Sally Piluras, spiluras@lwsd.org. Look for the following materials included in this packet:

- Science Fair Application
- A note to parents
- An explanation of the Washington State Science Standards as it relates to the Science WASL
- Helpful websites for project ideas
- Project ideas and drawings of what an exhibit should look like
- A step by step checklist for project completion
- A five-week timeline for tracking project completion

Thank you. We'll see you at the Science Fair!

Gail, Karen and Sally
