

NAC Meeting

April 10, 2007

Meeting called to order at 7:05

Minutes for March were approved.

Orchids: To Annette for her article in the Kirkland Courier. The kids for raising over \$3000 in their Pennies for Patients fund drive. Debbie Munkberg for her parent's night out scheduled for Saturday. Sharon is helping Bob make parts for his castle project. To Bob, his family tree and family history projects have given families opportunities to explore their history with one another.

Principal's Report: Nothing to report this month.

Teacher's Report: Progress reports coming out next week via back pack mail. WASL testing begins soon for 7th and 8th graders and some 9th graders. Only 9th graders who registered early are able to take the test. Got the district OK on the water system discussed last month, representative coming to school tomorrow.

Treasurer's Report: Nothing has changed since last printed report. Still encouraging people with matching funds to turn in their forms. Everything shaping up as expected so far.

Community Building: Conference week preparations are under way for June 19-21. If you have any ideas to help, please let Nancy, Cindy or Leah know.

Garage Sale: Please sign up to help with the sale, Tia would like to know sooner rather than later who will be available to help.

Staff appreciation and talent show are coming up May 29th.

New Business: Vancouver trip coming up May 10th. Birth certificates and passports are needed in the office by Friday.

LWHS modernization meeting coming up, let Ski know if you have any questions or concerns about it. Is there anything that people really want to see? A Courtyard was suggested. A gymnasium or large covered area to gather, maybe a covered sport court.

Will have to vote on new officers next year. Either next meeting or June meeting if we have one. Will send out an email with positions that will need to be filled. Some positions that may need to be filled: Conference week possibly.

Field Trip Coordinator.

Graduation Night.

Staff Appreciation, Talent Show.

Community Building Coordinator.

The district is testing some web based progress reports at some schools. It may or may not be available next fall.

Wendy completed the emergency supplies inventory. She went over what we have and some needs that we may have. Water pouches have a longer shelf life but are far more expensive than bottled water. To get around the shelf life issue, trade the water out every year. We use bottled water at picnics any way. The district is trying to come up with comprehensive lists of supplies based on the number of students in a school. Wendy is working on the district committee.

Next meeting May 8, 2007.

Adjourned 8:05
