

Carl Sandburg's 2nd Grade Homework Policy and Program

The Sandburg homework policy's time requirement for a second grader is 20 minutes, 4 times per week. Nightly reading is the most important requirement, and should take priority over any other supplemental classroom activities. A calendar will be sent home each month for students to set goals and track reading minutes. Please help your child hang this calendar up in their homework area or in a central location, like on the refrigerator. The completed calendar must be returned to school on the 1st day of each new month.

In addition to reading, 2nd grade uses a spelling and math facts programs. These both have weekly tests and are individualized to your child's level. We will explain the programs in detail at Curriculum Night and will start around the first of October.

Additional homework in the areas of math, science, writing, and social studies will be also available and further explained at Curriculum Night.

Thank you for your support at home,
The Second Grade Team
