

Extension Activities

Homework is an important part of reinforcing and extending your child's learning. Below is a list of extension activities your child can complete to enhance their education after completing nightly reading, spelling and math fact practice. Each of the item(s) listed below are topics that we are studying this month in class. You can either choose to complete the suggested activity(s) or create your own. Over the course of the month you and your child may chose when to complete each activity (Each activity should be focused on for at least a week. This will ensure that your child focuses on quality and depth of knowledge).

Math Game

- Boxing Match: see the directions with the game for further details.

- Your Idea: _____

Social Studies

- Environment: Taking care of our environment is important for our survival. Create a poster of things people can do to help their environment.

- Your idea: _____

Science

- Metamorphosis: In class we have learned that insects have a life cycle. Other animals also go through different stages of life. Compare and contrast an insect of your choice with an animal of your choice. Compare the stages of their life. Then challenge yourself and also compare their food, habitat, and special characteristics.

- Your idea: _____

Arts

- Leprechaun Trap: During the month of March many people celebrate St. Patrick's Day. As part of that celebration use materials around the house to create a leprechaun trap. Be creative and remember that leprechauns like sparkly things.

- Your idea: _____
