## Organizational Summary

Lake Washington School District is a high-performing, fast-growing public school district serving students in pre-school through grade 12. The district encompasses 76 square miles in the suburban east side of the Seattle metropolitan area. Lake Washington serves the cities of Kirkland, Redmond, part of Sammamish and unincorporated areas of King County. Lake Washington School District strives to make each of its more than 26,000 students future ready: prepared for college, prepared for the global workplace and prepared for personal success.

### Lake Washington School District has five strategic goals:

1. Ensure academic success for every student
2. Provide safe and innovative learning environments
3. Recruit, hire and retain highly effective personnel
4. Use resources effectively & be fiscally responsible
5. Engage our communities.

Goals two through five work in support of the first goal. That goal is most critical to reaching the district's mission and vision.

The district's strategic plan drives the district's work. It focuses efforts toward accomplishing these goals. That plan further develops the strategic work planned to help achieve each goal and objective as well as indicators of success.

District processes ensure that budget prioritization closely aligns with the strategic planning process and district goals. These efforts link the strategic work with resource needs (time, people, and money). They create an appropriate alignment of resources to accomplish this strategic work.

To help develop the strategic plan and the budget, the district surveyed staff members and parents concerning specific strategic programs. This survey provided feedback for use in strategic planning. It also provided feedback on budget priorities.

The state legislature has increased funding to K-12 Education as a result of the McCleary state Supreme Court decision. This decision ruled that the state was not meeting its obligation to fully fund K-12 public education as required by the state constitution. This is the second year the legislature has increased K-12 education funding significantly. The legislature provided additional funding for the general fund for materials, supplies, and operating costs. It also provided a cost of living increase for staff members. In addition, the state provided funding for a reduction in class sizes and for all day kindergarten in some schools.

Two years of significant increases in education funding from the state have offered the district an opportunity to invest in work toward key district goals. The district expects an increase in revenues from \$274 million in 2014-15 to \$304 million in 2015-16, an increase of \$30 million. In addition to the increases in state funding from the legislature, the district will receive additional funds due to increased enrollment. Increased income for the additional population is offset by increased expenditures for staffing and other costs of serving those students.

The state budget provided some additional funding for teachers for kindergarten through third grade aimed at reducing class sizes. During the recent recession, Lake Washington School District focused its funds on the classroom, maintaining lower class sizes while some school districts raised them. As a result, the district is already very close to the class sizes the state is funding. However, this additional funding will allow the district to provide additional teachers to schools facing split classes with second and third grade students.

District departments and programs made budget requests for ongoing and strategic work. Each request provided required information on the purpose of the resources needed, connection to student success and alignment with district mission, vision and strategic goals. Requesters also had to provide the impact if the request is not approved and other alternatives considered, including existing resources or other funding sources.

# Executive Summary

This information was provided to the district's Strategic Advisory Leadership Team (SALT). SALT is a representative group of principals and other administrators. They carefully reviewed all requests as well as the feedback provided in the parent and staff surveys. The Board of Directors also held work sessions on budget, providing additional input. SALT developed budget recommendations for the superintendent using all of the feedback from staff, parents and school board.

Items prioritized for addition to the budget primarily supported work toward three of the district's goals. Goal One, ensure academic success for every student, received funding in 2014-15 to invest in a number of items. Among them were an expansion of the highly capable program to kindergarten and grade 1; 7<sup>th</sup> period opportunities at high schools; additional high school counselors; an expansion of the special education learning center program; and funding of alternatives to out of school suspension. For 2015-16, additional investments will be made in college and career ready specialists and support for interpreter costs, among other items.

Significant funding was also directed last year toward the goal of providing safe and innovative learning environments. In this area, funding enabled an increase in the number of nurses and custodians plus grounds and staff supporting transportation operations. For 2015-16, additional high school campus security staff, health room support and enhanced technology support for all schools will be added.

A third area of focus is on the objective to provide quality training and professional learning systems, which leads to the goal to recruit, hire and retain highly effective personnel. The district's professional development program was heavily affected by past budget cuts, impacting the district's ability to train and coach teachers. Effective teachers must be life-long learners who continue to work to improve their practice. The 2014-15 budget added positions to help teachers focus on those efforts. Those positions included grades K-5 literacy coaches; grades K-12 Instructional coaches; and professional learning specialists. Additional support will be provided in 2015-16 for professional development in elementary writing and for the new teacher support program.

The superintendent led the budget development process, along with members of the superintendent's cabinet. Members of that group are:

- Dr. Traci Pierce, superintendent
- Janene Fogard, deputy superintendent for operational services
- Jon Holmen, associate superintendent for student and school support services
- Matt Manobianco, associate superintendent for student and professional learning services
- Kathryn Reith, communications director

The proposed budget was submitted to the board of directors in June. It was made available to the public and posted to the district website. The state of Washington requires that districts make their budget available no later than July 10. As required by law, the district must post legal notices for two consecutive weeks, at least seven days prior to the budget adoption hearing. In August, the board of directors adopts the budget. The final adoption date must be no later than August 31. The budget is submitted to the Educational Service District by September 3 and to the Office of the Superintendent of Public Instruction for final approval. The budget becomes effective for the start of the fiscal year on September 1.

Because the state legislature did not produce a final budget until late June, the draft budget submitted to the board of directors was further revised and resubmitted on August 3. A public hearing on the budget was heard on that date. A special school board meeting was scheduled for August 24 for final review and adoption of the budget.

This budget is adopted by the district's Board of Directors. Members of the board are:

- Jackie Pendergrass, President, first elected 1995
- Nancy Bernard, first elected 1997
- Siri Bliesner, first elected 2011
- Christopher Carlson, first elected 2007
- Mark Stuart, first elected 2013

# Executive Summary

## Financial Summary

The budget is developed using the guidelines of the Washington State Office of Superintendent of Public Instruction. It is organized into a series of accounts called funds.

General state revenues in the General Fund are expected to continue increasing each year until 2017-18 when the State Legislature is required by law to fully fund basic education. Local revenues are expected to decrease in 2017-18 when current levy calculations will be reduced.

Additional state income will pay for all-day kindergarten for all students in the coming years, starting with four schools in the district in 2015-16. That additional state income will largely be replacement income. Many students currently enroll in all-day kindergarten, with parents paying fees for the second half of the day. The state income will replace parent payments for those students.

The state legislature put on hold for four years the voter approved initiative (I-1351) to reduce class sizes in grades K-12. A small amount of funding for class size reduction in grades K-3 was provided in the 2015-16 budget. As the state moves toward lower class sizes in general, additional funding is expected to pay for the additional teachers who will be needed.

The district's Capital Facilities Plan provides enrollment projections showing the district's continued growth in the coming years. For 2015-16, the district expects 27,539 students, an increase of over 800 from the previous year. Additional increases will continue through 2020, when the district is expected to top 30,000 students. Those additional students, when combined with lowering class sizes, are expected to put considerable pressure on the available classroom capacity in the district. In other words, more classrooms will likely be needed to house the additional students and the increased number of classes from existing enrollment.

The Board of Directors approved a short-term facilities plan in September 2014, to add enough classrooms to address district capacity needs through 2017-18. This plan uses funds available from a mixture of past bonds that have been sold but unallocated; state construction assistance funds received; and school impact fees. These sources total about \$21.5 million. This plan adds 69 classrooms at a cost of \$20 million. These classrooms include an addition to Redmond Elementary and 28 new portable classrooms. In addition, creating teacher planning spaces at Juanita High School and Evergreen Middle School will allow their classrooms to be used during planning periods providing an equivalent of 17 classrooms.

A Long-Term Facilities Planning Task Force is currently working toward recommendations to address these classroom needs.

# Executive Summary

## Informational Summary

### Personnel Trends

As student enrollment increases, additional teachers are needed to teach those students. A total of 78 employees holding teaching certificates were added between 2013-14 and 2014-15. Lowering class sizes will also require additional teachers.

Classified employees (those without a teaching certificate) are needed to support the additional students and additional staff. They include custodians, nurses, payroll specialists, bus drivers and many more. There were about 50 additional classified staff in 2014-15 compared to the previous year.

As part of the legislature's efforts to fully fund education, it established a funding allocation method based on a prototypical school format. The additional funding received under this new formula will enable the district to increase its support personnel. Lower class sizes in grades K-3 are likely to require an increase in teachers for those grades. The district's growing enrollment will also result in increased staffing.

### Student Enrollment Trends

Between October 2013 and October 2014, student enrollment in Lake Washington School District (LWSD) grew from 26,048 to 26,712. That increase of 664 students follows a year with an increase of more than 650 students. This trend actually began in 2008. After several years of flat and even declining enrollment, LWSD started that year with 23,769 students. Since then, enrollment has grown by an average of 490 students each year.

Looking ahead, though, we know this growth will continue for the foreseeable future. There are more students in elementary grades than in the grades closer to graduation. Recently, about 1,800 students would enter kindergarten each year. Now we typically welcome about 2,200 kindergarteners each year. As the older, smaller district-wide classes graduate and younger, larger groups move up through the system, we will continue to see overall enrollment growth throughout our school district.

### Tax Base and Tax Burden Trends

The assessed value of taxable property within the district, the tax base, has increased from \$34.5 billion in 2011 to \$37.1 billion in 2014. The assessed valuation is expected to increase to \$43.3 billion for 2015 and to continue increasing thereafter. The tax rate per thousand increased from 2011 to 2012 from \$2.98 per thousand to \$3.52 per thousand due to the 6-year capital levy. Total tax rate peaked in 2013 at \$3.75 per thousand and declined to \$3.51 per thousand in 2014. It is projected at \$3.29 per thousand in 2015.

# LWSD Profile & Administrative Directory

## Lake Washington School District Profile

Lake Washington School District (LWSD) is a high-performing, fast-growing public school district, located between Lake Washington and the Cascade Mountains, to the east of Seattle. Covering 76 square miles, LWSD is the public school district for the cities of Kirkland and Redmond, as well as about half of Sammamish. On the north end of the district, some Bothell and Woodinville residents also attend our schools.

LWSD is committed to providing its 26,200 students with a relevant education that prepares them for future success. The district has 51 schools: 31 elementary schools (grades K-5), 13 middle schools (grades 6-8) and nine high schools (grades 9-12), including 12 choice schools and one choice program (Cambridge Program at Juanita High School). The district also offers preschool programs in seven elementary schools.

The district is a fiscally independent unit of government. It is served by a five-member Board of Directors. The Board serves as the taxing authority, contracting body and policy maker. It ensures that all general laws of the state of Washington are followed in the expenditure of the district's tax dollars. It approves the annual adoption and appropriation resolution of the budget. The Board of Directors is ultimately responsible for the financial management of the district. The Board is empowered to hire a superintendent, the district's chief executive officer, who is responsible to the Board for the district's daily operations.

# Board of Directors & Superintendent

## Board of Directors

**Jackie Pendergrass, *President, District One - First Elected in 1995***

Jackie Pendergrass has served as Legislative Chair and as Board President in the past and is currently serving as President. For over 30 years, she has been an advocate for children and children's issues both locally and statewide. During this time, she has been involved with a variety of child-focused organizations.

**Nancy Bernard, *Vice President, District Three - First Elected in 1997***

Nancy Bernard has served as Board Vice President, Legislative Representative, and President of the Board. She served four years on the Washington State School Directors' Association Legislative Committee. Nancy is a public health advisor with the Washington State Department of Health and manages the indoor air quality and school environmental health and safety program.

**Siri Bliesner, *Director, District Five - First Elected in 2011***

Siri Bliesner works in public health. She graduated from Stanford with a degree in human biology. Siri received a Masters in public health from the University of Washington. She speaks Spanish and currently works for Hopelink as the outcome and evaluation coordinator.

**Chris Carlson, *Director, District Two - First Elected in 2007***

Christopher Carlson, Ph.D., is a faculty member in the Fred Hutchinson Cancer Research Center's Division of Public Health Sciences. His lab focuses on identifying correlations between genetic variation and disease risk for cancer, diabetes, and other common diseases, and then identifying the causal biological mechanism responsible for the correlation.

**Mark Stuart, *Director, District Four - First Elected in 2013***

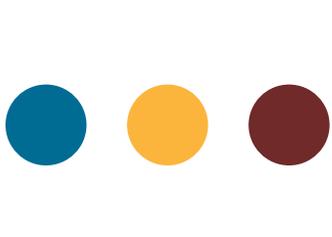

Mark Stuart was elected to the school board in November 2013. He graduated from the University of Oklahoma with a BA in Journalism. His career in Public Relations has afforded him the opportunity to work with local, national, and international media, as well as elected and non-elected government officials and their staffs on issues vital to the well-being of our nation.

## Superintendent

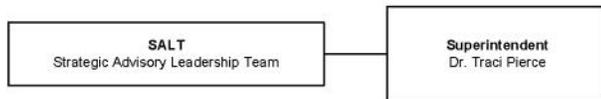

**Dr. Traci Pierce, *Superintendent of Lake Washington Schools***

Dr. Traci Pierce is a skilled educational leader with 21 years of experience in public education. She has been a teacher, assistant principal, principal, coordinator of instructional technology, director of teaching and learning, chief schools officer and deputy superintendent of instructional services. She has served as the superintendent of Lake Washington School District since 2012.

# Mission, Vision & Guiding Principles

<h2>Mission</h2>	<p>Each student will graduate prepared to lead a rewarding, responsible life as a contributing member of our community and greater society.</p>
<h2>Vision</h2>	<p>Every Student Future Ready:  <i>Prepared for College</i>  <i>Prepared for the Global Workplace</i>  <i>Prepared for Personal Success</i></p>
<h2>Guiding Principles</h2>	<p>The learning environments in our classrooms and schools.</p> <div style="display: flex; justify-content: space-around;"> <div data-bbox="529 905 826 1220" style="background-color: #800000; color: white; padding: 10px;"> <h3>Connection</h3> <ul style="list-style-type: none"> <li>• Interconnected Learning Experiences</li> <li>• Personalization &amp; Individual Attention</li> </ul> </div> <div data-bbox="862 905 1159 1220" style="background-color: #FF8C00; color: white; padding: 10px;"> <h3>Value</h3> <ul style="list-style-type: none"> <li>• Student Ownership &amp; Engagement</li> <li>• Equity &amp; Cultural Responsiveness</li> </ul> </div> <div data-bbox="1195 905 1492 1220" style="background-color: #0070C0; color: white; padding: 10px;"> <h3>Challenge</h3> <ul style="list-style-type: none"> <li>• Challenging &amp; Meaningful Curriculum</li> <li>• High Expectations &amp; Quality Instruction</li> </ul> </div> </div>

## Values Drive Our Culture

These core beliefs drive our organization's culture. The graphic connects four core values to key district defining documents:

- Student centered
- Results oriented
- Learning focused
- Community connected

# Strategic Goals & Objectives

## Goal 1: Ensure academic success for every student

- **Objective 1:** Provide rigorous, relevant and effective curriculum and assessments.
- **Objective 2:** Develop specific strategies and programs to ensure high quality learning for all students.
- **Objective 3:** Implement data-informed systems to guide improvement.

## Goal 2: Provide safe and innovative learning environments

- **Objective 1:** Ensure positive relationships between and among students, teachers, and staff.
- **Objective 2:** Integrate technology devices, applications and tools to enhance learning for students.
- **Objective 3:** Provide well-maintained, safe, and modernized schools.
- **Objective 4:** Ensure reliable and effective technology infrastructure and systems.

## Goal 3: Recruit, hire and retain highly effective personnel

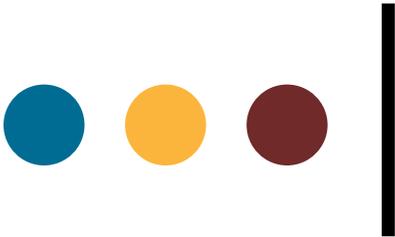

- **Objective 1:** Attract, recruit and retain highly qualified personnel.
- **Objective 2:** Provide quality training and professional learning systems.
- **Objective 3:** Refine and implement effective systems for professional growth and evaluation.

## Goal 4: Use resources effectively and be fiscally responsible

- **Objective 1:** Ensure alignment of resources and strategic goals.
- **Objective 2:** Develop methods to analyze return on investments in programs and services.
- **Objective 3:** Maintain solvency and minimum fund balance as directed by Board of Directors.

## Goal 5: Engage our communities

- **Objective 1:** Ensure proactive, varied, and consistent methods of communication.
- **Objective 2:** Implement methods for community and parent feedback and input.
- **Objective 3:** Develop transparency about our organizational work and performance.

# Budget Policies

## Budget Policies, Procedures and Regulations

### Budgetary Accounting

The budget serves as the basis for information appearing on required reports, as an integral part of the accounting records and as a tool for management control of expenditures during the fiscal year.

The District's budget is prepared on Generally Accepted Accounting Principles (GAAP) basis. A GAAP budget includes all expenditures/expenses incurred and revenue earned during the period, regardless of the timing when cash is actually received or paid.

### Budget Policies

#### **Policy Type: Executive Limitations**

#### **Policy Code: EL-10**

Financial planning for any fiscal year shall align with Board's End Results policies, ensure the district's financial position is fiscally sound and be derived from a multi-year plan.

Accordingly, the CEO shall develop a budget which:

1. Is in a summary format understandable to the Board and community presented in a manner that allows the board to see the relationship between the budget and the Ends priorities for the year.
2. Adequately describes revenues and expenditures.
3. Shows the amount spent in each budget category for the most recently completed fiscal year, the amount budgeted for each category for the current fiscal year and the amount recommended for the next fiscal year.
4. Discloses budget planning assumptions.
5. Plans for the expenditures in any fiscal year to be equal or less than are conservatively projected to be available during the year.

6. Provides necessary information to the Board on matters with a significant budgetary impact, allowing the Board adequate time to consider the information presented.
7. Considers feedback from the Board
8. Provides for reasonable contingencies.
9. Maintains the projected year-end fund balance is not less than five percent of the projected revenue.
10. Provides adequate and reasonable budget support for Board development and other governance priorities, including the costs of fiscal audits, Board and committee meetings, Board memberships and district legal fees.
11. Takes into consideration fiscal soundness in future years and builds on the organizational capabilities sufficient to achieve End Results in future years.
12. Reflects anticipated changes in employee compensation, including inflationary adjustments, step increases, performance increases and benefits.
13. Is based on reasonable consultation with appropriate constituent groups.

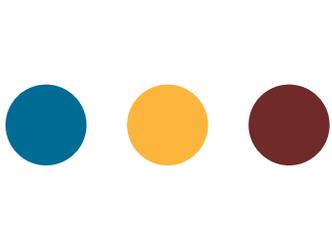

### Minimum Fund Balance

The Board of Directors provides for financial stability by directing the maintenance of a cumulative fund balance in an amount sufficient to meet the district's financial obligations on a timely basis. The Board has set a goal of maintaining an ending fund balance of a minimum of 5% of revenues.

# Fund Types

<p><b>General Fund (GF)</b></p>	<p>Accounts for the day-to-day operation of the school district. Included are all the normal and recurring financial activities of the school district that are not accounted for in other funds. Expenditures include salaries and benefit costs, and non-salary costs, such as supplies and materials, books and other instructional materials, utilities, purchased services and equipment. Revenues for the General Fund include state funds, special maintenance and operations levy funds, federal funds, and other funds.</p>
<p><b>Associated Student Body Fund (ASB)</b></p>	<p>Accounts for the student extracurricular activities in each school. Each school student body organization prepares and submits, for Board approval, a revenue and expenditure plan of ASB activities for the school year.</p>
<p><b>Debt Service Fund (DSF)</b></p>	<p>Provides for the redemption and payment of interest on voted and non-voted bonds. Each year an amount is levied which provides for redemption of bonds currently due, interest payments on bonds outstanding and related costs.</p>
<p><b>Capital Projects Fund (CPF)</b></p>	<p>Accounts for the financing and expenditures of capital projects. It includes modernization, new construction, equipping of new facilities, site purchases and improvements, major renovations, and technology system upgrades. Revenues for the Capital Projects Fund include state construction assistance, investment earnings, site sales, impact/mitigation fees, bonds, and levies.</p>
<p><b>Transportation Vehicle Fund (TVF)</b></p>	<p>Accounts for the purchase and major repairs of pupil transportation vehicles. Revenue for this fund includes state depreciation funds and investment income.</p>

# Revenue Sources

## State Apportionment - 54.6%

Provides the largest portion, 54.6 percent, of Lake Washington School District's general fund revenue. Apportionment is otherwise known as state general purpose funding. The amount is determined by the number of students attending our schools and a series of formula factors including legislatively set base salaries, employee benefits and non-labor allocations, as well as the collective education and experience of our teachers.

## Levy - 21.1%

Provides 21.1 percent of budgeted revenues. Levy amounts are capped by the legislature and must be approved by Lake Washington District voters at a special election.

## State Categorical - 11.5%

Provides 11.5 percent of budgeted revenues. These are categorical funds that come from the state for programs such as special education, pupil transportation, English Language Learners education, learning assistance, and education enhancements. Most of these revenues are given for a specific program and are not available for other purposes.

## Federal Funds - 5.1%

Comprises 5.1 percent of our revenues. These monies fund programs such as Title I and Head Start. They also provide supplemental funding for special education programs and support free and reduced lunches in the nutrition services program. These revenues may only be used for their specific program purpose.

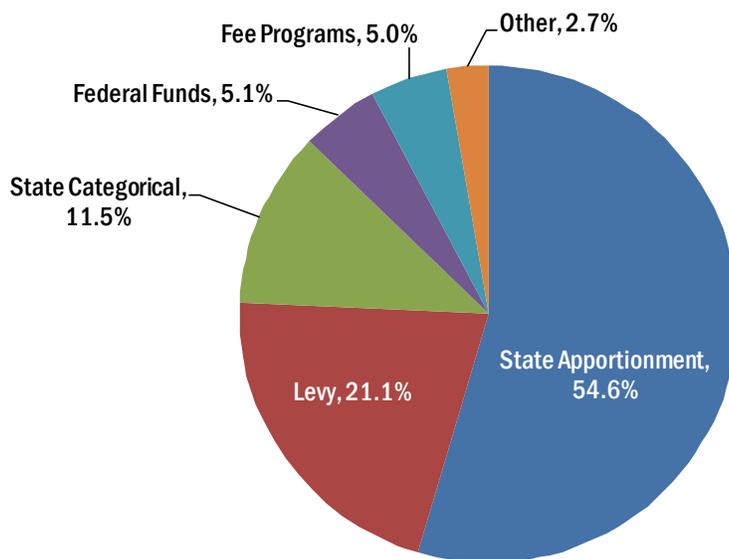

## Fee Programs - 5.0%

Generates 5.0 percent of local non-tax funds for programs such as sales of school lunches, extended day care, athletic participation, all-day kindergarten and preschool. Also included are investment interest earnings.

## Other School District, Agencies & Financing Sources - 2.7%

Payments from other districts for participation in joint programs, grants from other non-state agencies and transfers from the Capital Levy for Technology Training & Applications, accounts for 2.7 percent of budgeted revenues.

Where does the money come from?

# Expenditures

## Total Teaching - 74.9%

This portion of the district's budget is spent in and on the classroom, including expenditures for teachers, counselors, librarians, educational assistants, teaching supplies, materials, textbooks, instructional staff development, assessment and curriculum development. Also included are expenditures for pupil management and safety, health-related services, activities/athletics support and supervision, and community services and programs.

## Maintenance & Operations - 6.7%

These expenses include costs to maintain the district's facilities. This segment covers grounds and building maintenance, cleaning services, utilities costs and building and property security.

## Building Administration - 6.2%

This segment covers building administration, including principals, and school support, such as secretaries and office supplies.

## Central Administration - 4.7%

These expenses include development, coordination and evaluation of instructional programs by the superintendent and central office. Also included are business and human resources, supervision for nutrition services, maintenance and transportation, communications and legal costs.

## Transportation - 2.9%

This segment includes the operations, maintenance and insurance for transporting students.

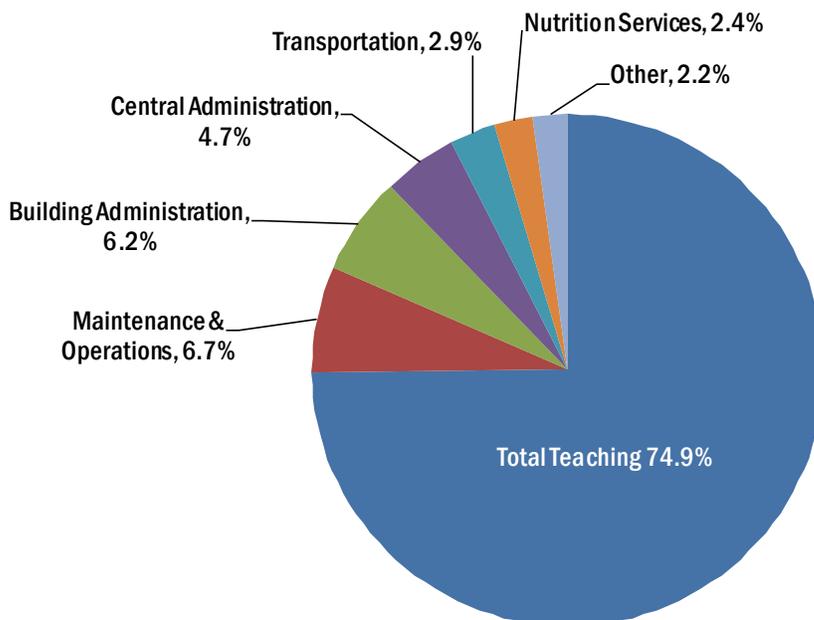

## Nutrition Services - 2.4%

This segment includes the costs for food and operations for the district lunch and breakfast program.

## Other - 2.2%

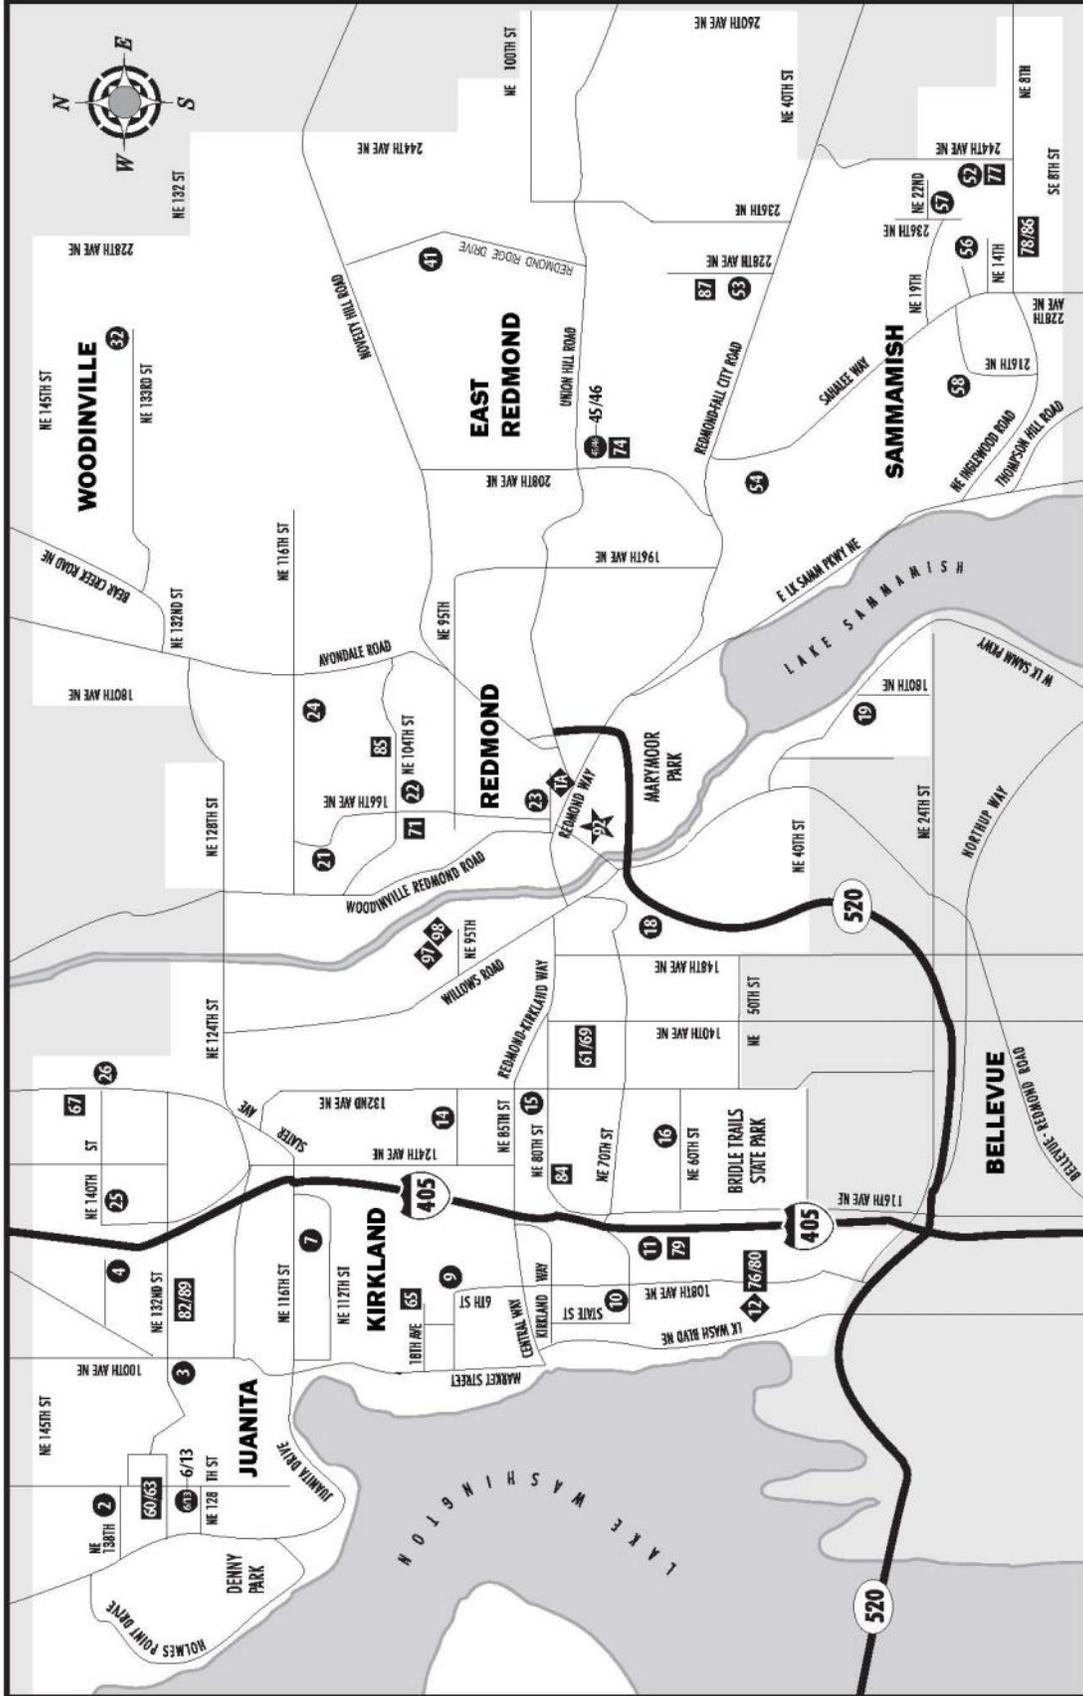

These expenses include property and liability insurance, information systems, printing, warehouse and distribution services. Also included are expenses related to the Extended Day program, which provides fee-based before and after school care for students.

## Where does the money go?

Property Taxes

Enrollment History and Projections

District Performance Measures

# Property Taxes

The school fiscal year runs September through August. Property taxes are levied and collected on a calendar year basis (January through December). The 2015-16 general fund fiscal year budget reflects \$64.0 million dollars in levy funds. Property tax revenues provide approximately 21.1 percent of the total revenues available to the district for the 2015-16 school year.

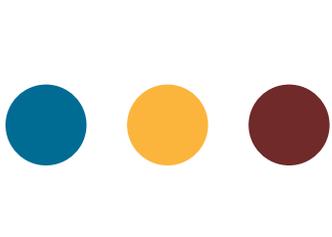

The School Board has final authority in determining how levy dollars will be expended. However, in creating a levy expenditure plan, the Board followed a process that involved community and staff input collected from surveys and public meetings.

The district may not collect more taxes than the amount approved by voters. The assessed valuation of taxable property in Lake Washington School District for 2015 totals approximately \$43.3 billion dollars.

We anticipate that the owner of a home valued at \$500,000 for the purpose of tax assessment will pay \$1,645 in property taxes in 2015 that will go directly to Lake Washington School District. Property tax statements also list a “State Property Tax.” This money is collected by the state and contributes to the state general fund, of which approximately 45% is used for K-12 education as determined by the legislature.

As shown in the Tax Base and Tax Rate Trends chart, the tax base of the district declined through 2013. The tax base has increased from \$33.5 billion in 2013 to \$43.3 billion in 2015. The tax base is expected to increase in 2016.

# Enrollment History & Projections

## Six-Year Enrollment Projection

The district developed long-term enrollment projections to assess facility capacity needs. Based on these projections, the district expects enrollment to increase by over 4,000 students from the 2012 school year through 2021.

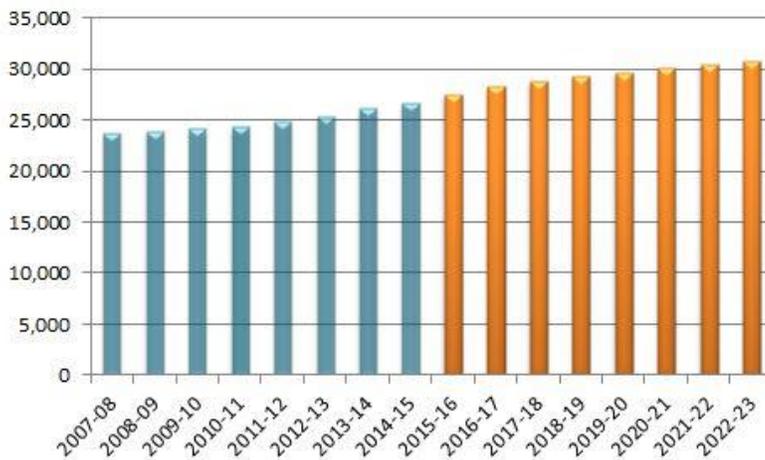

The district experienced actual growth of 664 students in 2014. During the six-year window from 2014 to 2020, enrollment is projected to increase by 3,343 students, resulting in a 12.5% increase.

Student enrollment projections have been developed using two methods:

- 1) *cohort survival* – which applies historical enrollment trends to the classes of existing students progressing through the system; and
- 2) *development tracking* – which projects students anticipated from new development.

## Cohort Survival

King County live birth data is used to predict future kindergarten enrollment. Actual King County live births through 2013 are used to project kindergarten enrollment through the 2018-2019 school year. After 2019, the number of live births is based on King County projections. Historical data is used to estimate the future number of kindergarten students that will be generated from county births.

**Actual enrollment from 2007-08 to 2014-15 (head count) – lighter bars**  
**Projected enrollment from 2015-16 to 2022-23 (head count) – darker bars**

For other grade levels, cohort survival trends compare students in a particular grade in one year to the same group of students in prior years. From this analysis, a cohort survival trend is determined. This historical trend is applied to predict future enrollment.

## Development Tracking

To ensure the accuracy and validity of enrollment projections, a major emphasis has been placed on the collection and tracking of data of 94 known new housing developments within the district. This information is obtained from the cities and county. It provides the foundation for a database of known future developments and assures the district's plan is consistent with the comprehensive plans of the local permitting jurisdictions. Each developer is contacted annually to determine the number of homes and the anticipated development schedule. Some small in-fill or short plat projects are not tracked. These projects may result in increased student population.

## Student Generation Rates

Developments that are near completion or have been completed within the last five years are used to forecast the number of students generated by new development. District-wide statistics show that each new single-family home currently generates a 0.410 elementary student, 0.128 middle school student, and 0.099 senior high student, for a total of 0.637 school-age child per single family home. New multi-family housing units currently generate an average of 0.062 elementary student, 0.016 middle school student, and 0.014 senior high student for a total of 0.092 school age child per multi-family home. The totals of the student generation numbers have increased since 2014 for both new single-family developments and for new multifamily developments. These student generation factors are used to forecast the number of students expected from new developments that are planned over the next six years.

# District Performance Measures

## State test scores

These scores are for the Measurements of Student Progress (MSP) tests in grades 3 through 8 and the High School Proficiency Exams (HSPE) in grade 10 as well as End of Course (EOC) tests in specific high school subjects. Not all subjects are tested in each grade level. Scores in the rows marked with grade levels are the average for Lake Washington School District. Scores in the rows marked "State" are the statewide average for the same year. Scores represent the percentage of students in each grade/subject who met the standard.
